Are You Ready to Play Your Part?

THE power of a nation in time of need is the producing power of her industries.

America must find out what this producing power is and then develop it. The capacity of every plant must be gauged. The ability of every man must be known. For War is Mechanical. It is Electrical. It is Chemical. It is Mining. Manufacturing. Transportation. It is EVERY phase of Engineering fused into a single industry—

"THE NATION'S DEFENSE."

Thirty thousand Engineers today are serving YOUR COUNTRY without pay. They are making a survey of YOUR COUNTRY'S Industrial Resources. They are helping YOUR COUNTRY to FIND ITSELF—and You! They are charting the channels of commerce. Sounding each source of supply. So that, should the Day break when War must come—

YOUR ARMIES in the field will be but the crest of a Wave of Industry, as wide as the American Continent and as deep as the American Soul.

That YOUR COUNTRY may know what the Engineers are doing, the Associated Advertising Clubs of the World have pledged their services to the President of the United States. And this advertisement, published free by this paper, is part of a nation-wide series to secure YOUR co-operation with the Engineers.

"WHAT CAN I DO?"

This is, doubtless, the question you are asking yourself. Here is the answer: If you are a manufacturer co-operate fully with the Engineers so they can do their job quickly and efficiently; if you are a working man help your employer to help the Engineers and be prepared, if so needed, to be a Soldier in Industry, behind the firing line, which is just as important as being a soldier on the firing line; if you are a business man or a professional man, or whoever you are, help mobilize "GOOD WILL" behind this patriotic task of the Engineers in behalf of National Defense and International Peace.

Business and Patriotism

A Nonpartisan Appeal to the Nation

The White House
Washington, April 21, 1916

To the Business Men of America:

BESPEAK your cordial co-operation in the patriotic service undertaken by the engineers and chemists of this country under the direction of the Industrial Preparedness Committee of the Naval Consulting Board of the United States.

The confidential industrial inventory you are asked to supply is intended for the exclusive benefit of the War and Navy Departments and will be used in organizing the industrial resources for the public service in national defense.

At my request the American Society of Civil Engineers, the American Institute of Mining Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers and the American Chemical Society are gratefully assisting the Naval Consulting Board in the work of collecting this data, and I confidently ask your earnest support in the interest of the people and government of the United States. Faithfully yours,

Woodrow Wilson

TRACY CITY

AND

MONTEAGLE, TENN

WILL MEET.

The County Board of Education will meet at Altamont, Thursday and Friday, June 23 and 24th for the purpose of electing teachers for the coming year.

A LOST TO TRACY CITY.

Mr. W. F. Bradley has moved his machinery to Brewster in Southern Georgia where he contracted for large bodies of timber.

Mr. Bradley is a successful timberman. During the six years of his activity in our midst he was very successful and made many friends. His industry will be sorely missed by our own town and the many people who found employment therein. Mr. Thos Wilson and family and Mr. Geo Wilson and family move to Brewster with Mr. Bradley.

Both the Bradley's and the Wilson's have made many friends during their stay in Tracy City. All feel keenly the loss to our community occasioned by the removal of these estimable families and they carry with them the good wishes of every one.

Bad to Have a Cold Hang On.
